SAS-IOT-MOD

IIOT-Based controller computers for effective automation/cloud solutions

Key Features

- High performance Quad-Core ARM
- Compact integrated casing for saving space and reducing cost of maintenance
- Linux(Ubuntu) pre-installed
- 64-bit CPUs, 4K video encode and decode capabilities
- Camera interface capable of 1400 MPix/s make this the best system for embedded deep learning

Hardware Specification

GPU	256-Core GPU
CPU	Quad-Core ARM
Memory	4GB 64-bit LPDD R4 Memory
Storage	16GB eMMC 5.1
Power	Under 10W
Wi-Fi Support	Yes
